**Management Discussion and Analysis Report**

**Global economy:**

In response to disruptions from the global pandemic, many central banks in emerging market and developing economies employed asset purchase programs for the first time in their history. These programs were successful in lowering bond yields without triggering currency depreciations. Despite the pandemic, the global economy is set to expand by 5.6% in 2021, its strongest growth in 80 years. This recovery is uneven and largely reflects sharp rebounds in some major economies. The global outlook is subject to significant downside risks, including the possibility of additional COVID-19 waves and financial stress amid high debt levels of Emerging Market and Developing Economies (EMDEs). Policy makers will need to support the recovery while safeguarding price stability, fiscal sustainability and to continue efforts towards promoting growth-enhancing reforms.

**Indian Economy:**

India's GDP growth stands at 7.3 percent for financial year 2020-21 and the Reserve Bank of India's projections indicate a strong revival of the economy with GDP growth expected to be at 10.5 per cent for financial year 2021-22. This trend is already visible in quarterly GDP movement during 2020-21, with GDP moving from a contraction of 24 percent in Q1-21 to a growth of 1.6 per cent during Q4-21 despite the disruptions caused by the ongoing second wave of the pandemic. However, we need to review and monitor with great caution, the short-to-medium term impact of the second and a probable third wave of the pandemic while continuing to work on more efficient ways of tackling its economic impact.

**Industry structure and developments:**

Real estate sector is one of the most globally recognized sectors. It comprises of four sub sectors - housing, retail, hospitality, and commercial. The growth of this sector is well complemented by the growth in the corporate environment and the demand for office space as well as urban and semi-urban accommodations.

It is also expected that this sector will incur more non-resident Indian (NRI) investments in both the short term and the long term.

**Opportunities:**

1. Implement the new technologies in an effective way.
2. Weakening of the competition.
3. Strategic real estate visibility.
4. An effective use of the new ways of communication.
5. International real estate strategy.

**Threats:**

1. Take on high levels of risk.
2. Changes of the real estate positioning environment.
3. Changes in the real estate market.
4. Changes of the potential buyers' preferences.
5. Eventual legal modifications.

The applicability of this model will depend on the particular necessities of every real estate, but it can also be used for:

1. Exploring possible solutions to different problems.
2. Detecting which are the weaknesses of the real estate.
3. Increasing the individual and collective level of productivity.
4. Taking more accurate decisions.
5. Modifying strategies.
6. Discovering new opportunities of this business.
7. Strengthening individual and collective abilities.
8. Managing the real estate's resources in a better way.
9. Speeding up the internal and external managing processes.
10. Getting to the potential clients in a more effective way.

**Segment-wise or product-wise performance:**

The Board has clearly mentioned the performance of product-wise service in Point VI of Note 23: Additional and other information of the Financial Statement.

**Outlook:**

As the real estate sector continues to tackle the existing issues created by the aftershocks of the liquidity crisis and resulting disruption of COVID19, we see an opportunity for well established players in the industry. The start of FY2021 may be muted due to the lockdown and subsequent impact on economy, but we believe our strong project pipeline and healthy balance sheet will help maintain operational performance going ahead. The pace of consolidation in the sector is also expected to accelerate further and we expect to gain market share. Also, amidst COVID19 and prevailing liquidity crunch, the visibility on business development is getting stronger and we hope to add several projects to our portfolio in FY2021. Our focus on real estate market, strong brand and existing portfolio leaves us on a strong foot to take advantage of this opportunity.

**Notes to and forming part of the Financial Statements:**

**NOTE 1: Significant accounting policies**

**1) Company Overview**

Asia Pack Limited is a listed entity incorporated in India on April 23rd, 1985 under the provision of the Companies Act, 1956 having CIN L74950RJ1985PLC003275 and presently having its registered office at 3rd Floor, Miraj Campus, Uper Ki Oden, Nathdwara, Rajsamand, Rajasthan, India, PIN- 313301. The Company is currently engaged in Real estate business.

**2) Basis of Preparation of Financial Statements**

These financial statements are prepared in accordance with Indian Accounting Standards (IndAs) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 ('The Act') (to the extent notified). The IndAs are prescribed under section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2017.

Accounting policies have been consistently applied except where a newly issued Accounting Standard is initially adopted or a revision to an existing Accounting Standard requires a change in the Accounting policies hitherto in the use.

**2A) Use of estimates**

The preparation of financial statements in conformity with IndAs requires the management to make judgment, estimates and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosure of contingent assets & liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of Accounting Policies that require critical Accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in the notes separately. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the management becomes aware of the changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

**2B) Summary of Significant Accounting Policies**

The Financial Statements have been prepared using the Accounting Policies and measurement basis summarized below:

**2B.1) Revenue Recognition**

Rental income is recognized on the accrual basis as per agreed terms.

Interest income is recognized as other income on a time proportion basis taking into account the amount outstanding and the applicable interest rate.

On Disposal of investments, the difference between its carrying amounts and net disposal proceeds is charged or credited to the Statement of Profit and Loss under the head of other income. Gain/Loss on sale of investments is determined on First in First Out cost basis.

**2B.2) Property, Plant and Equipment**

Property, Plant and Equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. On transition to IndAs, the Company has elected to continue with the carrying value of all its Property, Plant and Equipment recognized as at 1 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the Property, Plant and Equipment.

Depreciation on Property, Plant and Equipment is charged on WDV either on the basis of rates arrived at with reference to the useful life of the assets evaluated & approved by the management or rates arrived at based on useful life prescribed under Part C of Schedule II of the Companies Act, 2013.

The residual values, useful lives and methods of Depreciation of Property, Plant and Equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

### **2B.3) Intangible Assets**

The management has defined the definite life of 10 years for intangible assets mainly consist of brands/trademarks.

### **2B.4) Financial Instruments**

The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognised as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss. Details are disclosed in Note No. 20A.

#### **Investment in Partnership Firm**

However there is NIL inventory on reporting date.

### **2B.8 Taxation**

#### **Current Income Tax**

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss. Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

#### **Deferred tax**

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognized for all taxable temporary differences, except when it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

The Company has recognized such temporary difference, details of which are referred in Note No. 12.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

#### **Minimum Alternate Tax**

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax in future.

Accordingly, MAT is recognized as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company. MAT Credit entitlements are reviewed for the appropriates of their respective carrying value at each balance sheet date.

#### **2B.9 Employee benefit schemes**

Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of profit and loss for the year in which the related service is rendered. Post employment and other long term employee benefits are recognized as an expense in the profit and loss account of the year in which the employee has rendered services and treated as defined benefit plans. The expense is recognized on the assumption that such benefits are payable at the end of the year to all the eligible employees.

#### **2B.10 Provision for liabilities and charges, Contingent liabilities and Contingent Assets**

The assessments undertaken in recognising provisions and contingencies have been made in accordance with the applicable Ind AS.

Provisions represent liabilities to the Company for which the amount or timing is uncertain.

Provisions are recognized when the Company has a present obligation (legal or constructive), as a result of past events, and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognized in the statement of profit and loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Guarantees are also provided in the normal course of business. There are certain obligations which management has concluded, based on all available facts and circumstances, are not probable of payment or are very difficult to quantify reliably, and such obligations are treated as contingent liabilities and disclosed in the notes but are not reflected as liabilities in the financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings in which the Company involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

Contingent assets are not recognized but disclosed in the financial statements when an inflow of economic benefits is probable.

### 2B.11 Earning Per Share

In arriving at the EPS, the Company's net profit/ loss after tax before adjustment of Other comprehensive income, computed in terms of the Ind AS, is divided by the weighted average number of equity shares outstanding on the last day of the reporting period. The EPS thus arrived at is known as 'Basic EPS'. There are no potential equity shares in existence during the current and previous period therefore Basic & Diluted EPS are similar.

### 2B.12 Cash Flow Statement

Cash flows are reported using indirect method as set out in Ind AS -7 "Statement of Cash Flows", whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

#### VIII Capital work in Progress:

In the earlier years when the company was engaged into business activity of manufacturing PE Tarpaulin and PP/HDPE woven sacks, it also embarked upon setting up a weaving unit incurring substantial cost for its implementation which later in the interim stages had to be suspended due to constraints of financing of weaving unit and subsequently abandoned in view of disposal of entire assets relating to PE Tarpaulin/PP/HDPE woven sack manufacturing.

With the aforesaid background of events, the company could neither liquidate its investment into the un commissioned weaving division nor could proceed further to complete setting up of the said un commissioned weaving division since by then the entire projections and industry economics had undergone substantial change. After the change of management in FY 2005-06, the new management also explored possibility for a best possible commercial realization of the value of cost featuring as Capital work in Progress in respect of the un commissioned weaving division but failed in view of the changed industry requirements, technology up gradation and resultant cost economics.

Consequent to all the aforesaid, in F.Y. 2006-07, the management had taken a conscious decision to finally abandon the said un-commissioned weaving division and realize whatever salvages value it can fetch for all such un commissioned equipments. Value of Capital work in Progress has therefore been represented net of provision for estimated losses provided in financial year 2005-06 and actual write off of unrealized value of capital work in progress totaling Rs. 1,02,62,218/- during financial year 2007-08 and Rs. 5,52,934/- during the financial year 2020-21, against such provision of impairment losses.

**IX Value of imports calculated on CIF basis:** There is Nil import of capital items and other material during the current and previous reporting period.

**X Income and Expenditure in foreign currency:** No Foreign income earned and expensed during the current and previous reporting period.

**XI Recognition of Financial Instruments as per IND AS 109 on Fair Value at Comprehensive Income:** The Financial instruments has been recognised at Fair value and Income in this respect has been recognised at below the line item in Statement of Profit & Loss amounting to Rs. 11,080/- in this respect the Calculation has been done in Notes 20A of Profit & Loss and Sub Note 2B.4 of Note 1 of Financial Statements for Summary of Significant Accounting Policies.

**XII** In the opinion of management all the assets and Liabilities have been adequately identified and are approximately of the value as stated by the management and such assets or liabilities have been grouped & presented in the financial statement as per the management estimation in respect to their nature and term, If realized in the ordinary course of business, unless otherwise stated. In the opinion of management, the provisions for all liabilities have been materially identified and are adequately provided and not in excess / shortage of the amount reasonably necessary.
